Project objectives:

- To contribute towards improving the current travel and transport situation
- To prepare for the future of Grand Agadir by including the urban travel/transport issue within a sustainable development approach
- To set up a permanent transport committee (or service)

Action areas:

Breakdown into 5 components:

- 1- Bring together the stakeholders: identification of the various stakeholders, information seminar, consultation and meetings between all stakeholders, appointment of the Steering Committee, project manager and transport committee.
- 2- Improve the Municipality of Agadir's project management capacity in the area of transport by setting up a transport committee and by transferring know-how and methodologies.
- 3- Installation of a transport observatory: qualitative and quantitative study of traffic flows, safety, surveys, setting-up of a data catalogue, management tools, etc...
- 4- Contribute towards local development through improvement of transport and travel conditions by providing concrete solutions to basic issues such as:
 - Creation of segregated public transport lanes on the major roads.
 - Creation of segregated two-wheel-vehicle lanes on the major roads.
 - Improvement of traffic conditions (flow, safety).
 - Improvement of public transport journey times (bus lanes, localised segregated lanes, priority at crossroads, etc.).
- 5- Propose the terms of reference of a study into an Urban Transport Plan for Grand Agadir.
- 6- Monitor the activity of the transport committee: publishing of reports, effectiveness indicators to be set up and analysed.

Expected results:

- Implementation of a Transport Observatory.
- Launching of an Urban Transport Plan study.
- Installation and meeting of the Local Travel Committee.
- Installation of a travel/transport department in the Urban Community of Agadir.
- Effective knowledge of the travel/transport situation of Grand Agadir thanks to the implementation of a Transport Observatory.

Budgets

NM total budget: €340 000
 Agadir total budget: €75 000
 Subsidies: €273 000 in funding by the PAD
 Total budget: €688 000
